DESIGNED BY NATURE

At Stone International we all are passionate lovers of natural materials. Every day we work hard to bring the the one-of-a-kind pattern of the most beatiful natural stones in the world into your homes. We respect the authenticity of stones created by Mother Nature. Artificial printed marbles like ceramic, porcelain and glass with a "marble effect" are just not enough for our Customers. Furniture is not meant to be only functional but to generate emotions first.

HANDCRAFTED IN ITALY

For centuries, Italian artisans have used natural stones to create such masterpieces as the "DUOMO", the "COLOSSEO" and the statue of "DAVID". Stone International continues this tradition of impeccable craftsmanship. Our designers select the most unique marbles, our artisans cut them in precise pieces, put them together and hand-finish them to make luxury furniture dedicated to people who love natural materials as we do. This approach allow us to offer you tailored craftsmanship and customize almost all our marble products.

FAMILY BUSINESS

Family owned, since 1975 Stone International has been the world leading manufacturer of natural stone-based dining and occasional tables. Located among the hills of Tuscany, just outside of Florence, Italy where art and fashion provide a rich background for design and inspiration. Complementary upholstery together with standard and customizable capabilities complete the offering to fit today's modern world. This is what makes us genuinely unique in the world.

BOX

Tables Collection

The Box Tables celebrate purity of line over ornamentation. They are impeccably handcrafted in any of our unique marbles with polished or honed (matt) surface finish. The streamlined silhouette allows the material’s organic variations in tone and texture to take center stage.

Table with monolithic marble top.

Available with or without LED lighting system inside.

DIAMOND

Tables Collection

The Diamond Collection features a strikingly modern design. The table base has a sculptural balanced look showing different, unexpected angled surfaces every time the point of observation changes. The slender, airy stone top edges can be handcrafted with the new "Diamond chamfered corners" or with the classic thin knife bevelling all over. The Diamond Collection brings an air of casual sophistication with a light and natural feel.

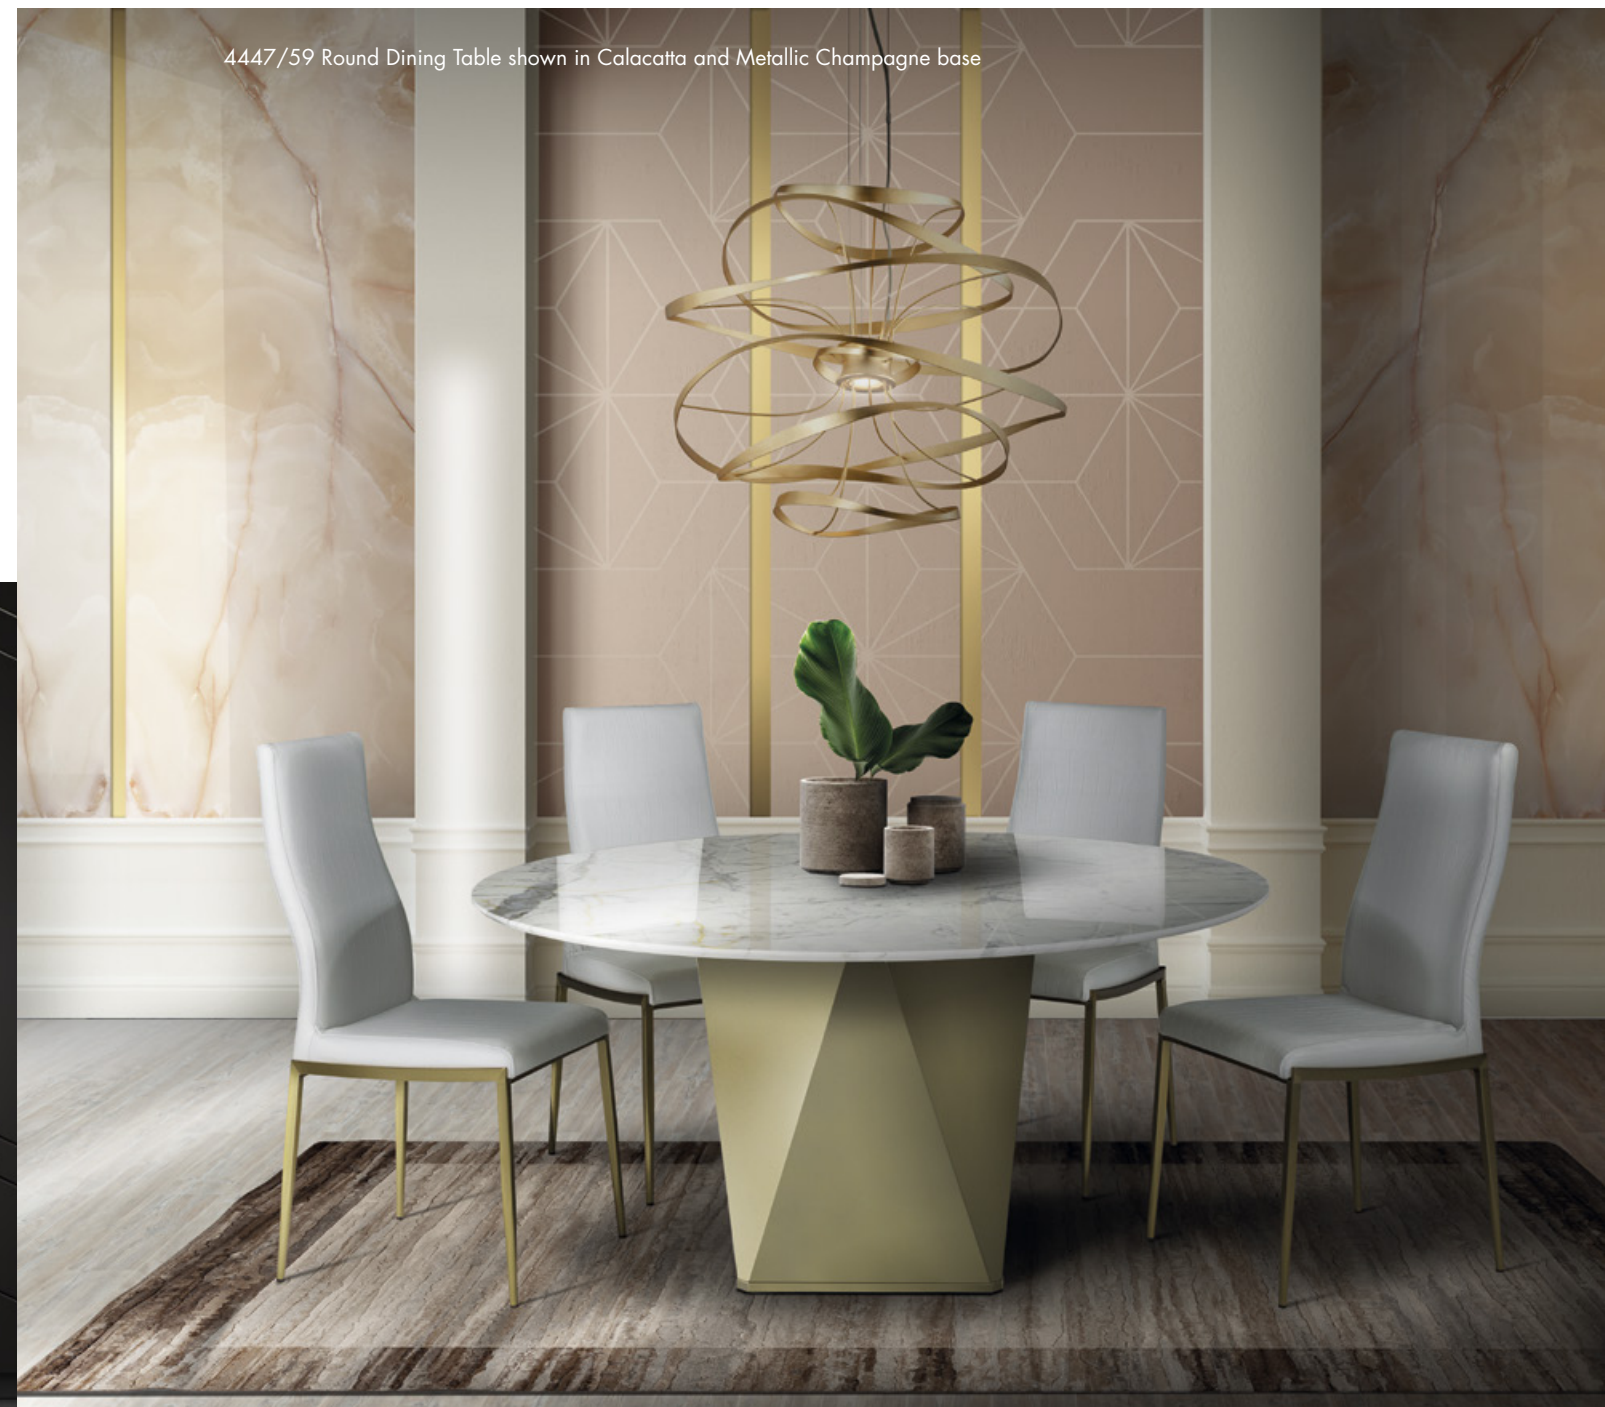

Top in any available natural stone finish with rectangular "Diamond" shape with chamfered corners" or rounded "Boat" shape. Both top options with thin knife edge.

Wood base in multiple veneers or varnished in any available metallic finishes.

APUAN STORM

Modern Elegance

The Apuan Storm is an Italian natural stone. It shows a warm grey background color. Its texture presents beautiful white veins. It shows sometimes small dark or reddish spots due to natural iron inclusions. The veins can extend from end to end of the table or blend throughout giving the appearance of a thunderstorm in a night sky. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with colored fillers and/or small pieces of the same material before polishing.

Consequently the surface might not be perfectly smooth due to the presence of residual micro-holes/pores that must not be considered as material defects.

GREY SPYDER

The Spyder Masterpiece

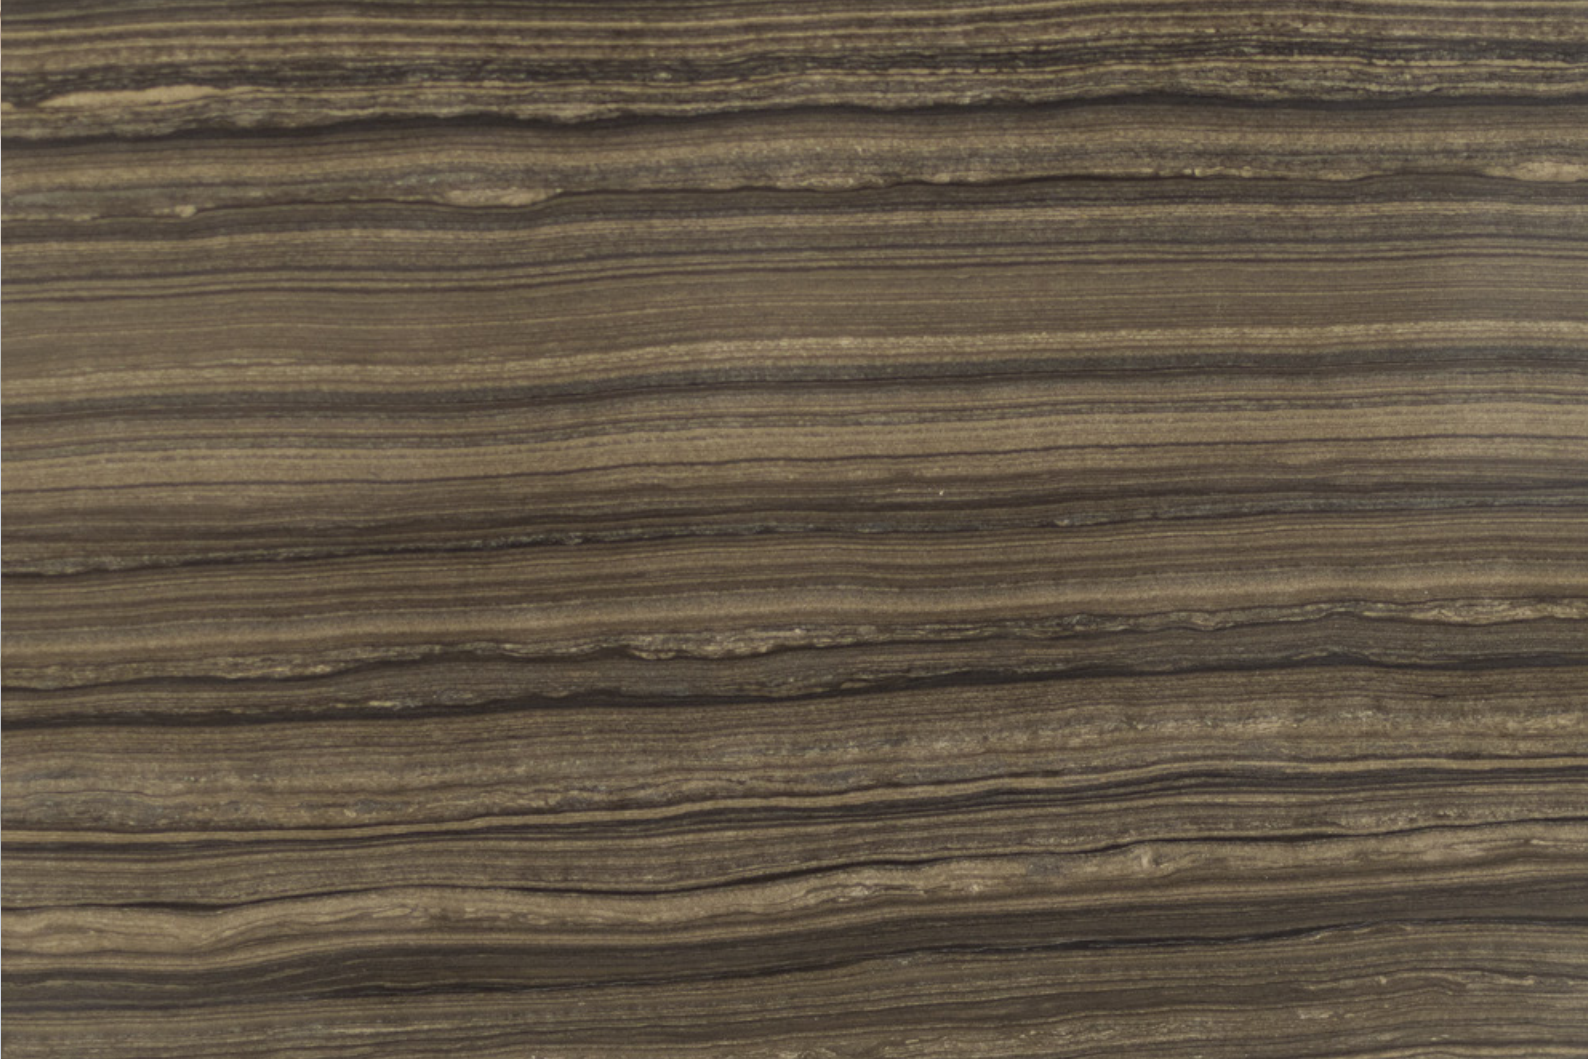

The Grey Spyder stone is a marvel created by Nature. It has a light blue grey background where rust-colored veins create an astonishing texture in the form of a spider mesh pattern. It shows frequently white areas due to natural carbonate inclusions. The veining pattern is not predictable and may vary from block to block and even from slab to slab. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with colored fillers and/or small pieces of the same material before polishing. Consequently the surface might not be perfectly smooth due to the presence of residual micro-holes/pores that must not be considered as material defects.

CALACATTA

On Top of the Luxury

Calacatta comes from the Apuan Alps, in the North of Tuscany, in Italy. It has a pure white background color and it shows oblique veins of grey, gold and light brown color tone. It shows sometimes shimmering metallic inclusions. The stripes /veins can extend from end to end of the table or blend throughout giving the appearance of ocean waves. In its natural form may have "holes", "pores" and "fissures" that are filled and sealed with transparent resins, colored fillers and/or small pieces of the same material before polishing. Consequently the surface might not be perfectly smooth due to the presence of residual micro-holes and pores that must not be considered as material defects.

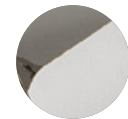

ERAMOSA

The "Wood" Stone

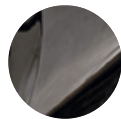

The Eramosa stone comes from Canada. Surprisingly it looks like a petrified wood. Its texture typically shows very narrow stripes and veins of all brown color shades along the table top length. It shows sometimes small creamy or reddish spots due to natural iron inclusions. The veins extend from end to end of the table. In its natural form may show "holes", "pores" and "fissures" that are filled and sealed with colored fillers and/or small pieces of the same material before polishing. Consequently the surface might not be perfectly smooth due to the presence of residual micro-holes/pores that must not be considered as material defects.

LIMITED WARRANTY

Warranty Policy

The following Limited Warranties are given only to the original retail purchaser, subject to all the terms and conditions below. These Limited Warranties are non-transferable. Stone International (trading under the name of Stone International) subject to all the limitations and exclusions described in these Limited Warranties, warrants our products and parts against transportation damages/breakages (if transportation is under our responsibility) and material/manufacturing defects ONLY IF THE CLAIM IS RAISED by the original retailer: -transportation damages/breakages: within 7 working days from the date of goods arrival at retailer warehouse (date of arrival included in the 7 working days) -material/manufacturing defects: within 30 working days from the date of goods arrival at retailer warehouse (date of arrival included in the 30 working days) It's responsibility of the Retailer to give evidence of the validity of the claim by sending images or written information/inspection reports.

Limitations and Exceptions

The following limitation and exceptions apply to the Limited Warranties:

Remedy

Under these Limited Warranties, for all of its products the sole liability of Stone International is limited to repair, or at its option, replacement the applicable product or part not in conformity with these Limited Warranties. REFUNDS ARE NOT AVAILABLE. If within the warranty period, identical materials are unavailable at the time of repair or replacement, Stone International reserves the right to substitute materials of equal or better quality. Replacement natural stones, fabrics or leathers may vary in color from the original due to dye lot differences.

All Products

These Limited Warranties do not apply to (i) rented, business, commercial, institutional, or other nonresidential uses, (ii) merchandise that was, at any time, used as a floor sample or display model, (iii) any merchandise purchased "as is" or second-hand, (iv) any merchandise purchased at a distress sale or a going-out-of business sale, (v) any merchandise purchased from a liquidator, or (vi) merchandise obtained from a rental retailer. All warranties, whether express or implied, cover only normal household usage. No warranty, express or implied, applies to any condition resulting from misuse, abuse, delivery or transportation damage, nor any condition resulting from incorrect or inadequate maintenance, cleaning or care. These Limited Warranties are null and void if furniture has been moved from original point of delivery to consumer.

Chemical Treatments

These Limited Warranties do not cover damages or defects caused by use of chemical treatments or protective coatings on the finish, leather, or upholstered fabric by the retailer or the original retail purchaser, and any such chemical treatments or protective coatings voids all warranties of Stone International.

Natural stones, Leather, Upholstered Fabric and Finishes

The Limited Warranties on "Leather", "Upholstered Fabric" and "Finishes and all Other Furniture Products" do not cover (i) damages resulting from excessive soiling, improper or unapproved cleaning methods, (ii) fading or other damages resulting from exposure to sunlight, (iii) damages resulting from household humidity, or (iv) damages resulting from any liquid, including but not limited to alcohol and water. CAUTION: Any use of improper or unapproved cleaning methods voids all warranties of Stone International.

Modifications to Products

These Limited Warranties do not apply to any products that have been altered by any person, dealer, or company without the express written authorization of Stone International.

DISCLAIMER

NO OTHER EXPRESS WARRANTY HAS BEEN MADE OR WILL BE MADE ON BEHALF OF STONE INTERNATIONAL WITH RESPECT TO THE FURNITURE AND ITS PARTS, OR THE OPERATION, REPAIR, OR REPLACEMENT OF THE FURNITURE AND ITS PARTS. FURTHERMORE, NO REPRESENTATIVE OF STONE INTERNATIONAL OR ITS DISTRIBUTORS OR RETAILERS IS AUTHORIZED TO MAKE ANY CHANGES OR MODIFICATIONS TO THESE LIMITED WARRANTIES. SOME RETAILERS OFFER EXTENDED OR ADDITIONAL WARRANTIES, INCLUDING BUT NOT LIMITED TO EXTENDED OR ADDITIONAL FABRIC WARRANTIES, EITHER FROM THE RETAILER OR THROUGH A THIRD PARTY. STONE INTERNATIONAL SHALL NOT BE LIABLE UNDER ANY EXTENDED OR ADDITIONAL WARRANTIES OFFERED BY ANY RETAILER OR THROUGH A THIRD PARTY UNDER ANY CIRCUMSTANCES. IN NO EVENT SHALL STONE INTERNATIONAL BE RESPONSIBLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SUCH AS LOSS OF USE, INCONVENIENCE, LOSS OR DAMAGE TO PERSONAL PROPERTY, WHETHER INDIRECT OR DIRECT, AND WHETHER ARISING IN CONTRACT OR TORT EVEN IF IT HAD REASON TO KNOW IN ADVANCE THAT SUCH DAMAGES WERE POSSIBLE. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE FOREGOING LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. IN NO EVENT SHALL STONE INTERNATIONAL'S RESPONSIBILITY EXCEED THE PURCHASE PRICE OF THE PRODUCT OR ITS REPLACEMENT. MARBLES ARE NATURAL STONES, OF SEDIMENTARY ORIGIN AND ARE FORMED MAINLY BY CALCIUM CARBONATE (CaCO₃). THEY ARE FORMED THROUGH A METAMORPHIC SEDIMENTARY ROCKS PROCESS, THAT CAUSES A COMPLETE RECRYSTALLIZATION OF CALCIUM CARBONATE. THE COLOUR OF MARBLES DEPENDS ON THE PRESENCE OF MINERAL IMPURITIES (CLAY, SAND, IRON OXIDES, LIME, FLINT NODULES) PRESENT IN GRANULES OR IN STRATUM IN THE SEDIMENTARY ROCK. PURE WHITE MARBLES ARE THE RESULT OF THE PROCESS OF METAMORPHOSIS OF LIMESTONE FREE FROM ANY IMPURITIES. ALL COLORED MARBLES CONTAIN INCLUSIONS, IMPURITIES, MINERALS. AS A NATURAL MATERIAL, FINISHED WITH NATURAL PROCESSES THAT MAINTAIN ITS NATURAL CHARACTER, MARBLE MAY HAVE SMALL HOLES AND INCLUSIONS BUT THIS DOES NOT AFFECT THE QUALITY OR THE STRUCTURAL STRENGTH. MARBLE IS POROUS AND HAS A POOR RESISTANCE TO ACIDIC SUBSTANCES (VINEGAR, LEMON JUICE, TEA, COFFEE, WINE ETC.) THAT EVEN IN SMALL QUANTITIES, CAN STAIN THE SURFACE AND PENETRATE INTO THE PORES FORMING MAT SPOTS. THERE IS NO PRODUCT THAT CAN PROTECT IT FROM SUCH SUBSTANCES ENSURING ABSOLUTE RESISTANCE. SEALANTS IN THE FORM OF LIQUIDS CAN BE APPLIED ON THE SURFACE OF MARBLE TO INCREASE THE PROTECTION TO WATER AND OIL-BASED SUBSTANCES. SEALANTS ARE NOT ABLE TO PROVIDE ANY RESISTANCE TO ACIDIC SUBSTANCES. WE RECOMMEND TO ALWAYS PROTECT THE TABLE TOP WITH COASTERS, PLACEMATS, TRIVETS TO PREVENT DAMAGES CAUSED BY ACCIDENTAL SPILLAGES OF LIQUIDS AND FOODS, HOT SPOTS AND HOT PLATES. STONE INTERNATIONAL WILL NOT BE RESPONSIBLE FOR ANY DAMAGE CAUSED BY SPILLAGES OR HOT SPOTS. ALL OUR MARBLES ARE QUARRIED FROM THE DEEP GROUND OR FROM THE WILDEST MOUNTAINS. THEY ARE NATURALLY IMPERFECT MATERIALS AND ARE REFINED WITH TRADITIONAL PROCESSES USING THE LATEST MACHINERY AND POLISHED WITH NATURAL WAXES TO PRESERVE THE ORIGINALITY AND UNIQUENESS OF EACH PIECE. WE SELECT THE RAW MATERIALS TO OFFER THE BEST COLOR AND TEXTURE CONSISTENCY BUT COLOR AND VEINING PATTERN VARIATIONS FROM BLOCK TO BLOCK AND EVEN FROM SLAB TO SLAB (BELONGING TO THE SAME BLOCK) ARE QUITE COMMON AND UNAVOIDABLE. EACH PIECE IS ONE-OF-A-KIND. THAT'S THE NATURAL MARBLE ESSENCE, THE NATURAL MARBLE UNIQUENESS.

PRODUCT INFORMATION

All of our stones are natural – presenting all the variations and unique colorings found in nature. Since natural stones come from the quarry as a whole block, the exact nature of any single slab is unknown. As all natural products, no two pieces will look alike. None of the natural veins, pores, and variations are to be considered defects, but instead characteristics that make your table one-of-a-kind and enhance its beauty. Because our tables are all naturally polished, the polish will vary across your table top. This is simply a result of a natural polish on a natural stone and one more way to emphasize the inherent unique beauty of each table. All natural stones are porous and should be cared for like a fine wood table. Our tables are polished with a natural paste wax. The wax is absorbed by natural stone. This process provides the shine on the table top. Because the polish is natural, the shine can be uneven. This irregularity can be caused by either a varied absorption of the wax into the stone or by a varied effect due to the refraction of the light against minerals which have been deposited in different directions in the stone. This uneven polish is absolutely natural and normal and not to be considered a defect. The natural paste wax gives a certain amount of moisture repellence but does not offer full protection. Any beverage or liquid spilled on the top needs to be removed immediately to avoid rings or marks. Hot pots or hot plates should not be placed directly on the stone surface. Coasters, place mats and trivets are recommended to protect the stone surface from damages due to accidental spillages of acid liquids and due to hot pots or hot plates. Stone International will not be responsible for any marks or damages caused by liquids being spilled with no table protection. The table top should be wiped using a damp cloth to remove any dust and dirt and then dried using a soft duster. Spills that could damage it, i.e. acidic substances such as fruit juice, wine and spirits, curries etc. should be wiped away as quickly as possible. Ensure that moisture does not become trapped under vases or mats as this may cause the finish to ring. Protect table from the heat by using quality tablemats and coasters. The marble slabs are normally prou and must be filled before polishing. When slabs are filled and polished, most of the natural holes and fissures are filled but residual voids, fills, and fissures are not to be considered defects but natural characteristics of the materials. Every effort is made for the fill to blend with the coloration of the table top but the fill will never be invisible. Occasionally small openings are missed and remain open. This is not considered a defect. Because of the natural veining in travertine, marble and granite, natural stress points are always present. Fault lines are natural to stone as the rings on a tree trunk. These fault lines are created during the formation of the marble by the presence of a foreign substance with a different density than the surrounding portions of the marble. Fault lines, as the holes in travertine, are not a defect but natural to the product and visible fault lines do not indicate weakness. Natural stones, unlike wood, are dead materials which do not alter their structure over time. Once assembled, if used with the proper care, they will last forever. Consequently, a breakage on a table top in the customer's home is generally due to mis-handling or mis-treatment. Like glass, you should not sit or stand on a marble table. When properly assembled the dining table should always have the top attached to the base. In the event you need to move the table after assembling, ALWAYS detach the top from the base first. A top should always be carried perpendicular to the floor – just like a glass top. It should not be dropped or laid flat.

PRODUCT CARE

HOW TO APPLY A MARBLE SEALANT

THERE IS NO PRODUCT THAT CAN PROTECT NATURAL MARBLE FROM BEING STAINED OR CORRODED BY AGGRESSIVE SUBSTANCES ENSURING ABSOLUTE RESISTANCE. SEALANTS IN THE FORM OF LIQUIDS CAN BE APPLIED ON THE SURFACE OF THE MARBLE TO PROVIDE A BASE PROTECTION TO WATER AND OIL BASED SUBSTANCES. SEALANTS ARE NOT ABLE TO PROVIDE ANY RESISTANCE TO ACIDIC SUBSTANCES. SEALANTS PERMIT TO BUY SOME TIME BEFORE THE MARBLE IS STAINED IN ORDER TO WIPE QUICKLY THE SURFACE WITH WATER OR NEUTRAL DETERGENTS. DO NOT LET SPILLAGES STAY ON THE MARBLE SURFACE FOR MORE THAN 30 MINUTES. WE RECOMMEND TO ALWAYS PROTECT THE TABLE TOP WITH COASTERS, PLACEMATS, TRIVETS TO PREVENT DAMAGES CAUSED BY ACCIDENTAL SPILLAGES OF LIQUIDS AND FOODS, HOT SPOTS AND HOT PLATES.

Scan the QR code with your smartphone camera to watch the How-To video

WHAT TO DO IN CASE OF STAINS, HOT SPOTS, ACID ETCHING

IF THE DAMAGED AREA IS SMALL (LESS THAN 4/5CM – 2”) YOU CAN SUCCESSFULLY REPAIR THE MARBLE WITH OUR GRINDING AND POLISHING TOOLS

Scan the QR code with your smartphone camera to watch the How-To video

WHAT TO DO IN CASE OF OPEN PORES OR ACCIDENTAL INDENTATIONS

IF THE MARBLE SURFACE HAS SOME RESIDUAL SMALL PORES (MOSTLY TRAVERTINES) OR HAS BEEN ACCIDENTALLY CHIPPED BY HARD AND BLUNT OBJECTS, CAN SHOW OPEN HOLES OR CHIPPED EDGES. IF THE DAMAGED AREA IS SMALL (LESS THAN 1CM – 1/4”) YOU CAN SUCCESSFULLY REPAIR THE MARBLE WITH OUR FILLERS AND FILLING TOOLS

Scan the QR code with your smartphone camera to watch the How-To video
