DESIGNED BY NATURE

At Stone International we are all passionate lovers of natural marbles. Every day we work hard to craft the most beautiful natural stones and bring them into your homes. Artificial or printed marbles like ceramic, porcelain and glass with a “marble effect” are just not enough for our community. We believe that furniture is not meant to be only functional but to generate emotions and wellness first. While styles and materials may vary in different parts of the world, natural marbles still represent the first choice for those who desire something exclusive, crafted, tactile and textural with a heart and soul.

HANDCRAFTED IN ITALY

For centuries, Italian artisans have crafted natural stones to create such masterpieces as the “DUOMO”, the “COLOSSEO” and the statue of “DAVID”. Stone International continues this tradition of impeccable craftsmanship. Our designers select the most unique marbles, our craftsmen cut them in precise pieces, put them together and hand-finish them to make luxury furniture dedicated to people who love natural materials as we do. This approach allow us to offer you tailored craftsmanship and customize almost all our marble products.

FAMILY BUSINESS

Family owned, since 1975 Stone International has been the world leading manufacturer of natural stone-based dining and occasional tables. Located among the hills of Tuscany, just outside of Florence, Italy where art and fashion provide a rich background for design and inspiration. Complementary upholstery together with standard and customizable capabilities complete the offering to fit today’s modern world. This is what makes us genuinely unique in the world.

# STILO

## Tables Collection

The Stilo collection is inspired to an iconic design of contemporary furniture: the Parson table, created by Jean-Michel Frank in the '30s. This modernist table features four legs (square in cross-section), flush with the edges of the top, and equal to it in thickness. It is then enriched by a superb decorative trim placed just under the marble top and enhanced by a contrasting metal finish.

Tables with metal base in satin steel (SS) with satin brass thin contrasting frame (SB) or dark grey coating (DG) with satin steel (SS) thin contrasting frame.

Top in any natural stone with thin edge or thick boxed edge (for currently available natural stones please refer to the up-to-date price list).

# MARYLIN

## Buffet Collection

The Marylin collection reminds us that furniture pieces are more than objects. They complement our lives and help us to create our stories and our memories. Not only do they play a functional role in our everyday lives. We don't often think about how much our physical surroundings interplay with our emotions. Look closer at the gorgeous metal handle pairs, the graceful design of the upholstered sides, the stunning door covers and the subtle marble top and enjoy the sight. Our buffets offer plenty of storage space and add instant elegance to any room.

4-Doors buffet with upholstered sides and doors in genuine leather or Eco Nabuk (please see "Finishes" section)  
Metal handles and legs in polished steel (PS) or any Metallic coatings  
Doors with soft closing mechanism. Set of 2 tempered glass shelves  
Thin bevel top in any natural stone finish (for currently available natural stones please refer to the up-to-date price list).

# TRIBECA

## Buffet Collection

The Tribeca collection combines the simple shapes and clean lines of the wood parts with the stunning design of the marble handle pairs and of the subtle metal base. Look closer and you will discover the exquisite complexity of those delicate accents. Sometimes a single object can define a space. The nestled stone top will be your secret place where decor pieces or personal items can be displayed. Switch up the ornaments or add content as you like. Designed with both function and character in mind, our buffets offer plenty of storage space and add instant elegance to any room.

- 2, 3 or 4-Doors Buffet with wood carcass in multiple colors:  
Polished stainless steel (PS) base  
Set of tempered glass shelves  
Doors with soft closing mechanism  
Top and handles in any natural stone finish (for currently available natural stones please refer to the up-to-date price list).

# WALDORF

## Bed Collection

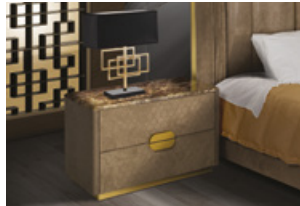

Wow! This is the instinctive reaction at first sight. When a superb design appears thanks to the fine elegance of a perfectly crafted object the result is a memorable piece of art. The Waldorf Bed is magnificent and unique. Hand made Italian craftsmanship at the highest peak. The far rich choice of covers and metal decorations offers us the opportunity of making our one-of-a-kind bed to be proud of for the rest of our life. Without compromises. If you desire all the best for you, take it now.

The Waldorf bed is available in standard or custom sizes and can be upholstered with Eco Nabuk or leather. The headboard metal decoration parts and bed frame feet are available in satin steel or can be varnished in any metallic finishes (please specify).

All our bedroom furniture collections can be mixed and matched to create your perfect combination

# WESTIN

## Bedroom Collection

The Westin Bedroom collection is the result of an exploration of the borders between art and design. The eye catching upholstered bed is a signature piece. Every detail is just gorgeous. Take a closer look at the superb hand made pleating inside the headboard or at the distinctive pleated details wrapped around the footrail and siderails. Then dwell on the metal accent feet and start wondering which metallic color you could choose to enrich your dreamy bed. The bedroom complementary furniture pieces are absolutely stunning. You are welcome to choose your desired marble top, your favourite wood finish and the preferred metallic color for the handles and base platform. Everything will look perfect. There won't be nothing quite like this.

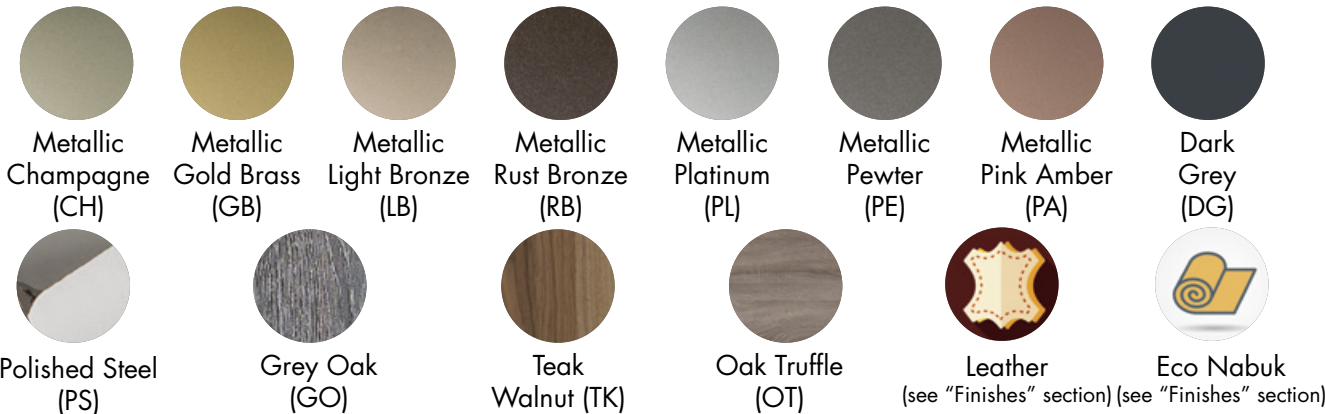

The Westin bed is available in standard or custom sizes and can be upholstered with Eco Nabuk. The Westin bedroom furniture is available in multiple wood finishes with:

- Metal handles and bottom platform in Polished steel (PS) or in any Metallic colors.
- Drawers with soft closing mechanism
- Top in any natural stone finish with thick boxed edge (for currently available natural stones please refer to the up-to-date price list). All our bedroom furniture collections can be mixed and matched to create your perfect combination

## WALNUT TRAVERTINE

### Classic elegance

The Filled/Polished Walnut Travertine is an Italian travertine. It shows a walnut brown background color. Its texture typically presents swirled veins coming in shades of brown and grey. It shows frequently small dark areas due to natural iron inclusions. The stripes /veins can extend from end to end of the table or blend throughout giving the appearance of ocean waves. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with colored fillers and/or small pieces of the same material before polishing. Consequently the surface is not regular due to the presence of residual micro-holes/pores that determine the natural characteristic of the travertine itself.

## TRAVERTINE

### Roman Empire

The Filled/Polished Travertine is the most popular Italian travertine. It shows a light beige background color. Its texture typically presents swirled veins coming in shades of brown and grey. It shows frequently small dark areas due to natural iron inclusions. The stripes /veins can extend from end to end of the table or blend throughout giving the appearance of ocean waves. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with colored fillers and/or small pieces of the same material before polishing. Consequently the surface is not regular due to the presence of residual micro-holes/pores that determine the natural characteristic of the travertine itself.

## GLAM TRAVERTINE

### The onyx travertine

Glam travertine comes from Italy and is a brown/grey travertine. Its texture typically shows swirled veins coming in all shades of brown, beige and grey from very dark to light tones. It shows frequently very narrow veins ranging from white to yellow due to natural iron inclusions. The stripes /veins can extend from end to end of the table or blend throughout giving the appearance of ocean waves. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with transparent resins, colored fillers and/or small pieces of the same material before polishing. Consequently the surface is not regular due to the presence of residual micro-holes/pores that determine the natural characteristic of the travertine itself.

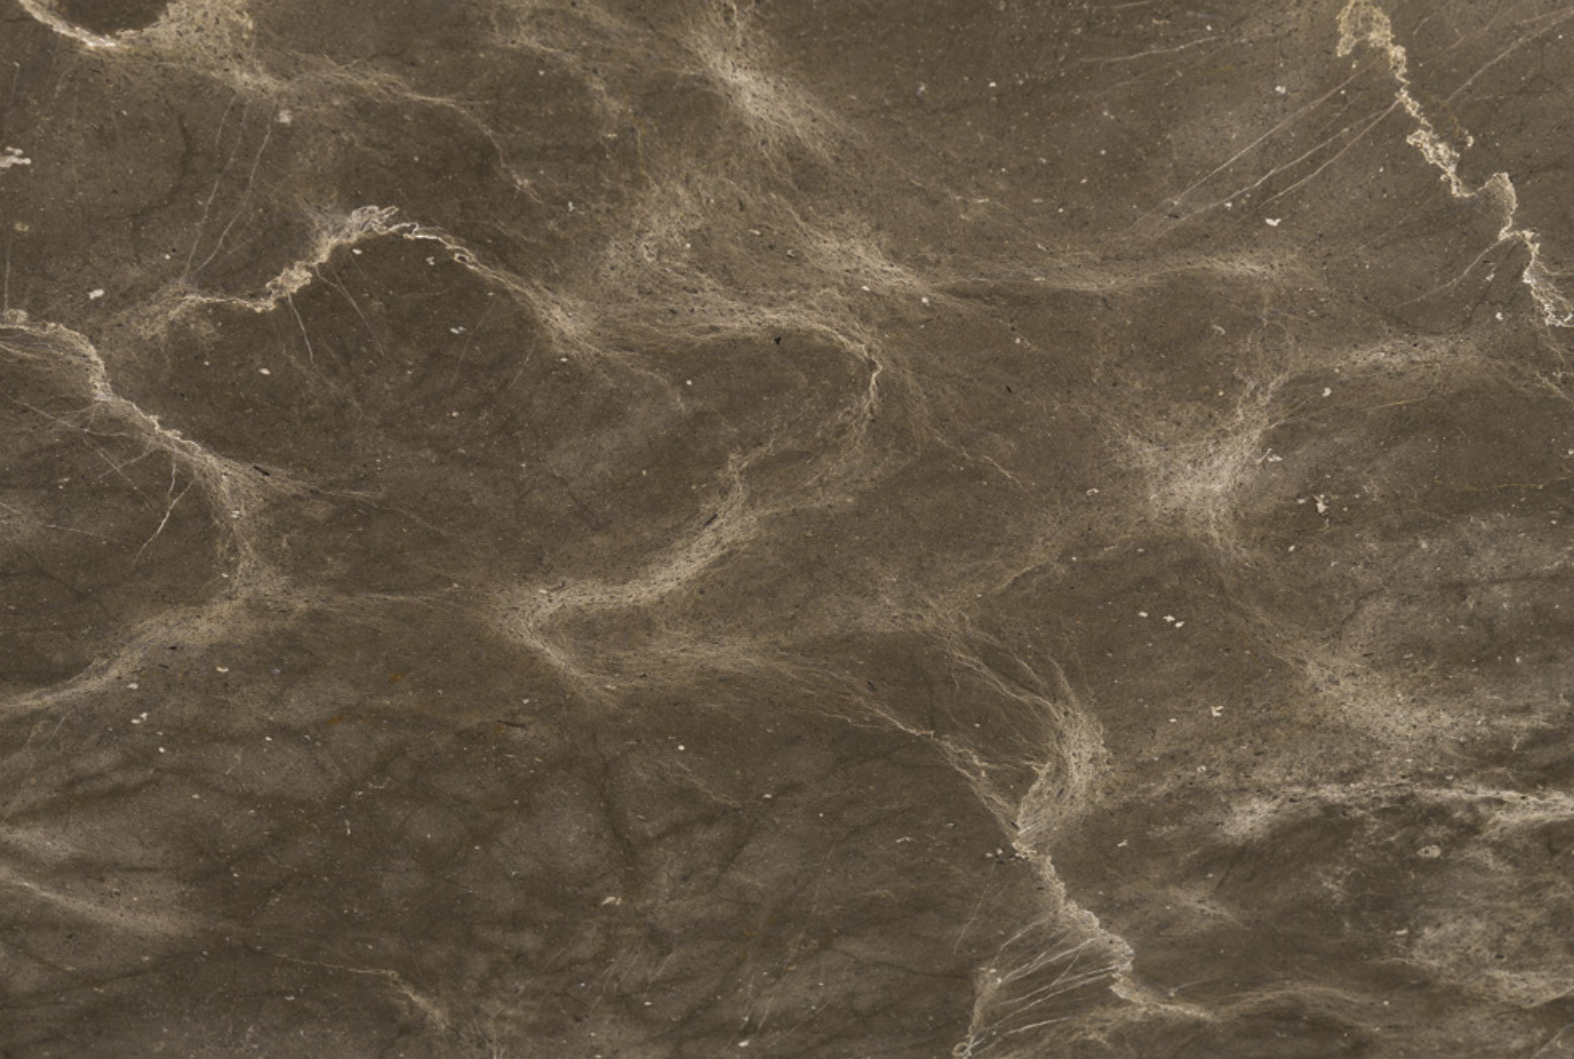

## TIVOLI SILVER

### Italian glamour

The Tivoli Silver travertine comes from Italy and is a light beige travertine. Its texture typically shows a "cloudy" morphology with light and darker areas of the same background color tone. It shows frequently very small white or grey patches due to natural fossil shells or iron inclusions. In its natural form has "holes", "pores" and "fissures" that are filled and sealed with transparent resins and small metal silver foils blended with reflective crystals that produce the sparkling effect of a precious stone. Consequently the surface is not regular due to the presence of residual micro-holes/pores that determine the natural characteristic of the travertine itself.

## AMANI DARK

### Nordic style

The Amani Dark comes from Italy. It has a dark olive green background color with light gray random veins and narrow lines. Amani Dark can show some small holes or fissures on the surface. They are not imperfections or polishing defects but natural characteristics inherent to the material that cannot be filled even by mean of the best polishing technologies.

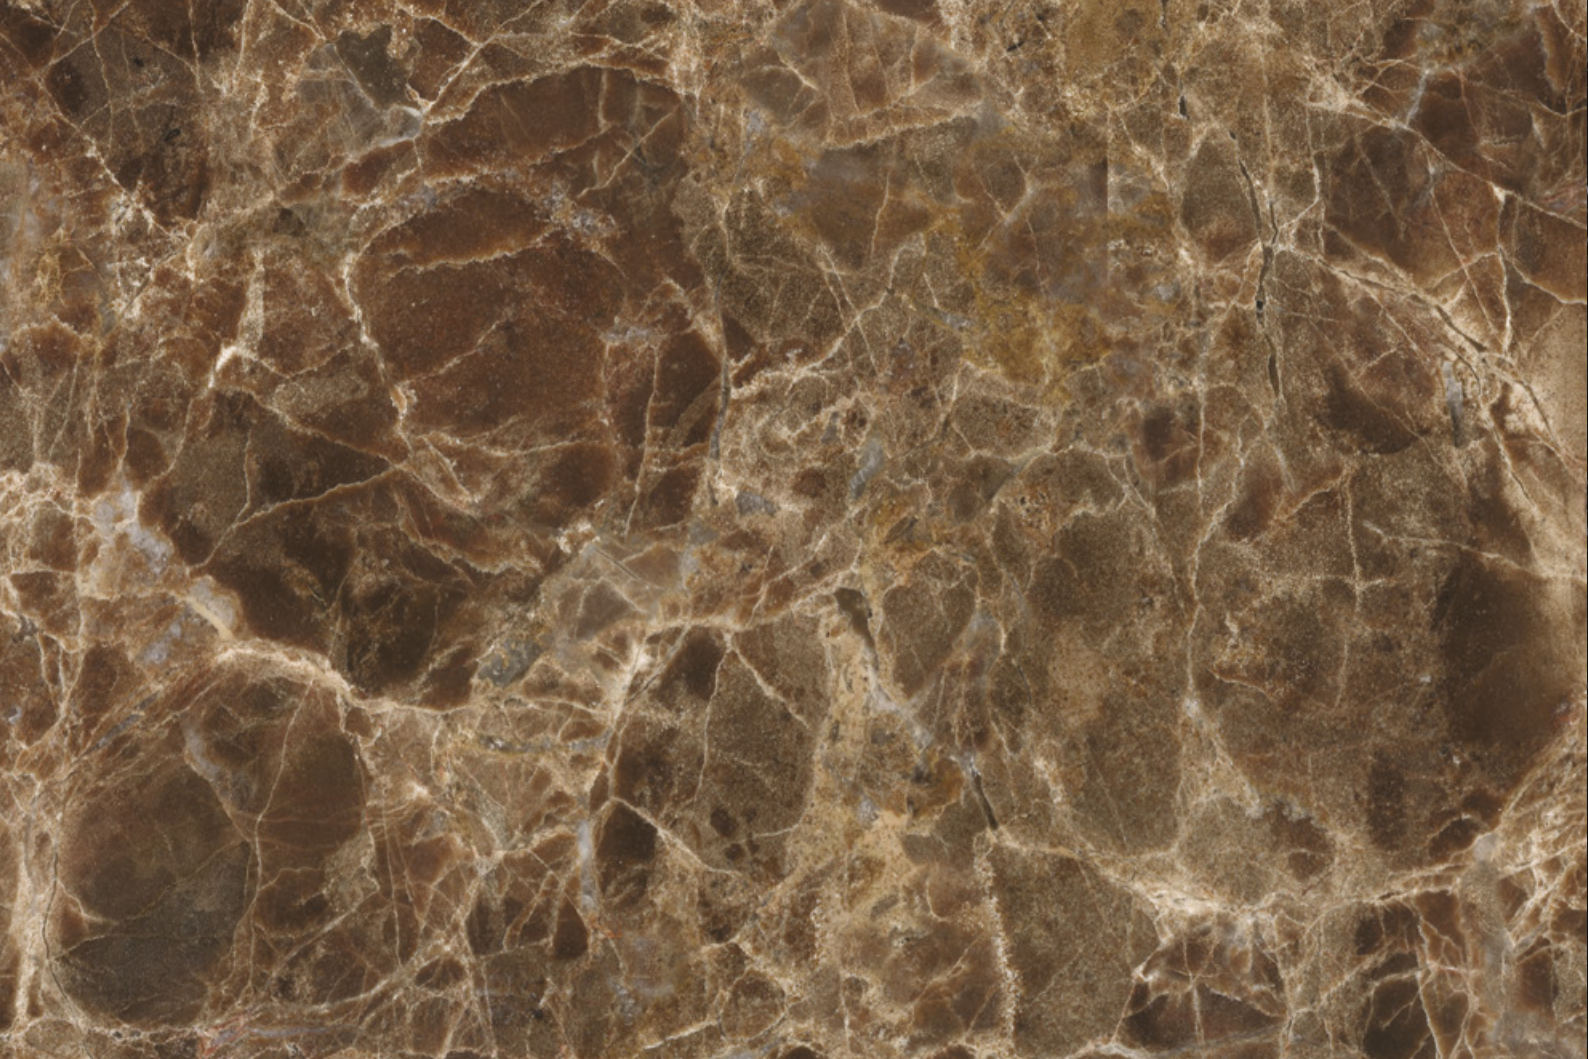

## STRIPE MARBLE

### Greek beauty

The Stripe Marble comes from Greece. It has a light background color with straight grey veins perfectly parallel one to each other. The Stripe Marble can show some small white veins in the opposite direction of the long grey veins. They are not imperfections or polishing defects but natural characteristics inherent to the material.

## IMPERADOR

### Spanish luxury

Imperador stone comes from Spain and is a dark brown stone spotted with lighter shades of brown surrounded by white narrow veins. In its natural form has “holes” and fissures that are sealed with resins and/or pieces of the same stone before polishing. Consequently the surface is not regular due to the presence of residual micro-holes that determine the natural characteristic of the marble itself. The Imperador stone is a natural material whose visible “imperfections” are inherent characteristics of the material, which is processed in a traditional way with the latest polishing technologies and natural waxes.

## GARMISH BLACK

### The dark side of the marble

The Garmish Black is a dark black marble with white veins of different size and length with carbon inclusions. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## MIDNIGHT GREY

### Fifty shades of grey

Midnight grey comes from Italy. It has unique patterns and color variations rarely seen among other marble stones. Background color is dark grey, sometimes with slightly bronzed color tones. The swirled veins comes in all shades of grey from very dark to light tones. It shows frequently very narrow veins ranging from orange to red due to natural iron inclusions. The stripes/veins can extend from end to end of the table or blend throughout giving the appearance of grey ocean waves. In its natural form Midnight Grey marble has "holes" that are sealed with grey resins and/or small pieces of the same marble before polishing. Consequently the surface is not always regular due to the presence of darker filled areas or residual micro-holes.

## CORTINA WHITE

### Italian "Dolce Vita"

Cortina White (also called white Carrara marble) comes from the apuan alps in the north of Tuscany. It has a background color that can range from white to light gray with veins or marks of dark grey / black color. Cortina White can show some small holes on the surface that are called "taroli". They are not imperfections or polishing defects but natural characteristics inherent to the material that cannot be filled even by mean of the best polishing technologies.

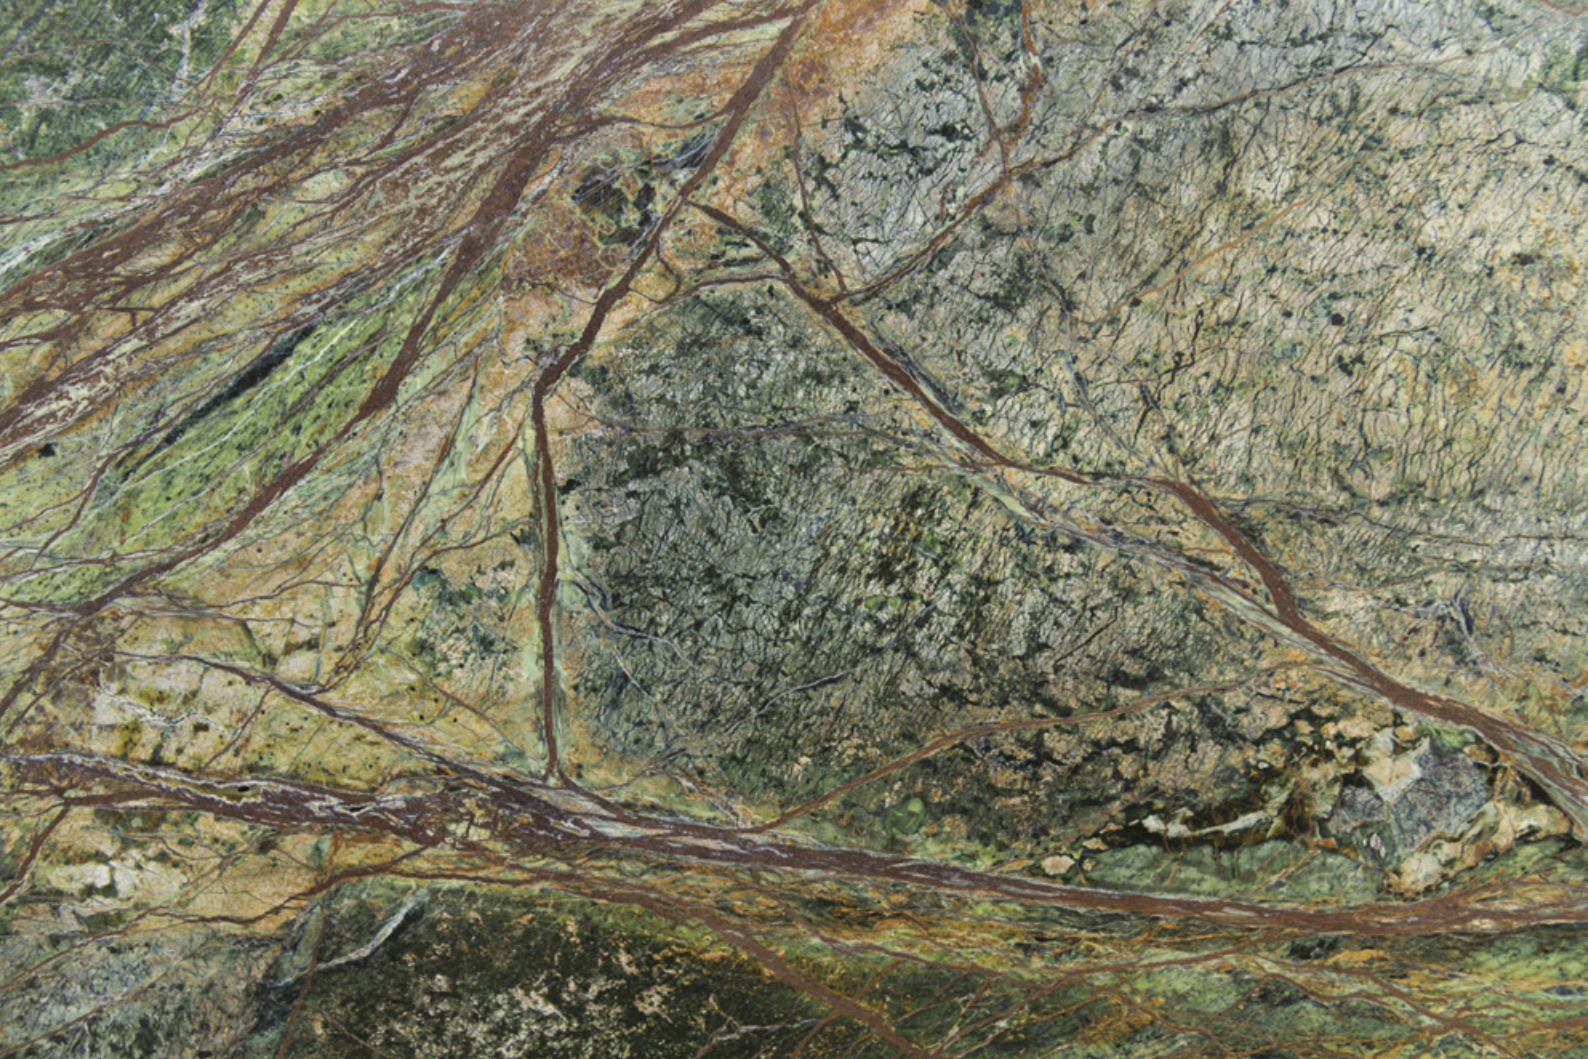

## FOREST BRUNELLO

### Brown Rainforest

The Forest Brunello Marble comes from South America. It has a reddish background color with large veins of multiple colors. Forest Brunello has a texture similar to granite but can show some small holes or fissures on the surface . They are not imperfections or polishing defects but natural characteristics inherent to the material that cannot be filled even by mean of the best polishing technologies.

## FOREST GREEN

### Green Rainforest

The Forest Green Marble comes from South America. It has a green background color with large veins of multiple colors. Forest Green has a texture similar to granite but can show some small holes or fissures on the surface . They are not imperfections or polishing defects but natural characteristics inherent to the material that cannot be filled even by mean of the best polishing technologies.

## SAHARA NOIR

### Dark sophistication

The Sahara Noir is a dark black marble with white, brown and golden veins of different size and length with carbon inclusions. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## AMANI LIGHT

### Beige wonder

The Amani Light comes from Italy. It has a light beige background color with white large veins and small dark narrow lines. Amani Light can show some small holes or fissures on the surface. They are not imperfections or polishing defects but natural characteristics inherent to the material that cannot be filled even by mean of the best polishing technologies.

## BEIGE FANTASY

### Beige storm

Light and voluptuous. Pure but sophisticated. We have simply fallen in love with the beauty and elegance of this natural stone that adds instant warm and lightness to any room. Beige Fantasy has unique patterns and color variations rarely seen among other marble stones. It has a taupe beige background color tone, sometimes paired with slightly bronzed color tones. The swirled veins comes in brown or creamy white from very dark to light tones. The veins can extend from end to end of the table or blend throughout giving the appearance of grey ocean waves. In its natural form Beige Fantasy marble can show some small “holes” that are sealed with transparent or colored resin before polishing.

## PERSIAN BRONZE

### Authentic charm

The Persian Bronze has a warm, intense glow that makes each piece extremely attractive. It shows a stunning bronze background color with a unique texture featuring white and brown veins of different size and length with carbon and metal inclusions. Persian Bronze is reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material that are both beautiful and unique.

## GREEN ONYX

### Evergreen luxury

The Green Onyx is a cloudy-textured onyx with large areas of light green color with random veins of brown and rusty red color. Sometimes can show purple veins. Light green areas are generally translucent to the light. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## FANTASTIC ONYX

### The magic of stone

The Fantastic Onyx is a striped onyx with large bands/veins of rusty red, beige, blue, white color. Light veins are generally translucent to the light. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## WHITE ONYX

### Pure luxury

The White Onyx is a famous cloudy-textured onyx with large areas of white color with random veins of brown and rusty red color. Sometimes can show purple veins. White areas are generally translucent to the light. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## BROWN ONYX

### Honey explosion

The Brown Onyx is a cloudy-textured onyx stone showing either darker areas of honey color and lighter areas of cream and cappuccino color. Light or white veins are often present and are normally translucent to the light. It is a fragile marble that must be reinforced with back mesh and transparent resin. The surface can show some small holes and fissures that are not imperfections or polishing defects but natural characteristics inherent to the material.

## LIMITED WARRANTY

### Warranty Policy

The following Limited Warranties are given only to the original retail purchaser, subject to all the terms and conditions below. These Limited Warranties are non-transferable.Stone International (trading under the name of Stone International) subject to all the limitations and exclusions described in these Limited Warranties, warrants our products and parts against transportation damages/breakages (if transportation is under our responsibility) and material/manufacturing defects ONLY IF THE CLAIM IS RAISED by the original retailer: -transportation damages/breakages: within 7 working days from the date of goods arrival at retailer warehouse (date of arrival included in the 7 working days) -material/manufacturing defects: within 30 working days from the date of goods arrival at retailer warehouse (date of arrival included in the 30 working days) It's responsibility of the Retailer to give evidence of the validity of the claim by sending images or written information/inspection reports.

### Limitations and Exceptions

The following limitation and exceptions apply to the Limited Warranties:

#### Remedy

Under these Limited Warranties, for all of its products the sole liability of Stone International is limited to repair, or at its option, replacement the applicable product or part not in conformity with these Limited Warranties. REFUNDS ARE NOT AVAILABLE. If within the warranty period, identical materials are unavailable at the time of repair or replacement, Stone International reserves the right to substitute materials of equal or better quality. Replacement natural stones, fabrics or leathers may vary in color from the original due to dye lot differences.

#### All Products

These Limited Warranties do not apply to (i) rented, business, commercial, institutional, or other nonresidential uses, (ii) merchandise that was, at any time, used as a floor sample or display model, (iii) any merchandise purchased "as is" or second-hand, (iv) any merchandise purchased at a distress sale or a going-out-of business sale, (v) any merchandise purchased from a liquidator, or (vi) merchandise obtained from a rental retailer. All warranties, whether express or implied, cover only normal household usage. No warranty, express or implied, applies to any condition resulting from misuse, abuse, delivery or transportation damage, nor any condition resulting from incorrect or inadequate maintenance, cleaning or care. These Limited Warranties are null and void if furniture has been moved from original point of delivery to consumer.

#### Chemical Treatments

These Limited Warranties do not cover damages or defects caused by use of chemical treatments or protective coatings on the finish, leather, or upholstered fabric by the retailer or the original retail purchaser, and any such chemical treatments or protective coatings voids all warranties of Stone International.

#### Natural stones, Leather, Upholstered Fabric and Finishes

The Limited Warranties on "Leather", "Upholstered Fabric" and "Finishes and all Other Furniture Products" do not cover (i) damages resulting from excessive soiling, improper or unapproved cleaning methods, (ii) fading or other damages resulting from exposure to sunlight, (iii) damages resulting from household humidity, or (iv) damages resulting from any liquid, including but not limited to alcohol and water. CAUTION: Any use of improper or unapproved cleaning methods voids all warranties of Stone International.

#### Modifications to Products

These Limited Warranties do not apply to any products that have been altered by any person, dealer, or company without the express written authorization of Stone International.

## DISCLAIMER

NO OTHER EXPRESS WARRANTY HAS BEEN MADE OR WILL BE MADE ON BEHALF OF STONE INTERNATIONAL WITH RESPECT TO THE FURNITURE AND ITS PARTS, OR THE OPERATION, REPAIR, OR REPLACEMENT OF THE FURNITURE AND ITS PARTS. FURTHERMORE, NO REPRESENTATIVE OF STONE INTERNATIONAL OR ITS DISTRIBUTORS OR RETAILERS IS AUTHORIZED TO MAKE ANY CHANGES OR MODIFICATIONS TO THESE LIMITED WARRANTIES.

SOME RETAILERS OFFER EXTENDED OR ADDITIONAL WARRANTIES, INCLUDING BUT NOT LIMITED TO EXTENDED OR ADDITIONAL FABRIC WARRANTIES, EITHER FROM THE RETAILER OR THROUGH A THIRDPARTY. STONE INTERNATIONAL SHALL NOT BE LIABLE UNDER ANY EXTENDED OR ADDITIONAL WARRANTIES OFFERED BY ANY RETAILER OR THROUGH A THIRD-PARTY UNDER ANY CIRCUMSTANCES. IN NO EVENT SHALL STONE INTERNATIONAL BE RESPONSIBLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SUCH AS LOSS OF USE, INCONVENIENCE, LOSS OR DAMAGE TO PERSONAL PROPERTY, WHETHER INDIRECT OR DIRECT, AND WHETHER ARISING IN CONTRACT OR TORT EVEN IF IT HAD REASON TO KNOW IN ADVANCE THAT SUCH DAMAGES WERE POSSIBLE. SOME STATES DO NOT

ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE FOREGOING LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. IN NO EVENT SHALL STONE INTERNATIONAL'S RESPONSIBILITY EXCEED THE PURCHASE PRICE OF THE PRODUCT OR ITS REPLACEMENT.

MARBLES ARE NATURAL STONES, OF SEDIMENTARY ORIGIN AND ARE FORMED MAINLY BY CALCIUM CARBONATE (CaCO3). THEY ARE FORMED THROUGH A METAMORPHIC SEDIMENTARY ROCKS PROCESS, THAT CAUSES A COMPLETE RECRYSTALLIZATION OF CALCIUM CARBONATE. THE COLOUR OF MARBLES DEPENDS ON THE PRESENCE OF MINERAL IMPURITIES (CLAY, SAND, IRON OXIDES, LIME, FLINT NODULES) PRESENT IN GRANULES OR IN STRATUM IN THE SEDIMENTARY ROCK. PURE WHITE MARBLES ARE THE RESULT OF THE PROCESS OF METAMORPHOSIS OF

LIMESTONE FREE FROM ANY IMPURITIES. ALL COLORED MARBLES CONTAIN INCLUSIONS, IMPURITIES, MINERALS.

AS A NATURAL MATERIAL, FINISHED WITH NATURAL PROCESSES THAT MAINTAIN ITS NATURAL CHARACTER, MARBLE MAY HAVE SMALL HOLES AND INCLUSIONS BUT THIS DOES NOT AFFECT THE QUALITY OR THE STRUCTURAL STRENGTH. MARBLE IS POROUS AND HAS A POOR RESISTANCE TO ACIDIC SUBSTANCES (VINEGAR, LEMON JUICE,

TEA, COFFEE, WINE ETC.) THAT EVEN IN SMALL QUANTITIES, CAN STAIN THE SURFACE AND PENETRATE INTO THE PORES FORMING MAT SPOTS. THERE IS NO PRODUCT THAT CAN PROTECT IT FROM SUCH SUBSTANCES ENSURING ABSOLUTE RESISTANCE.

SEALANTS IN THE FORM OF LIQUIDS CAN BE APPLIED ON THE SURFACE OF MARBLE TO INCREASE THE PROTECTION TO WATER AND OIL-BASED SUBSTANCES. SEALANTS ARE NOT ABLE TO PROVIDE ANY RESISTANCE TO ACIDIC SUBSTANCES. WE RECOMMEND TO ALWAYS PROTECT THE TABLE TOP WITH COASTERS, PLACEMATS, TRIVETS TO

PREVENT DAMAGES CAUSED BY ACCIDENTAL SPILLAGES OF LIQUIDS AND FOODS, HOT SPOTS AND HOT PLATES. STONE INTERNATIONAL WILL NOT BE RESPONSIBLE FOR ANY DAMAGE CAUSED BY SPILLAGES OR HOT SPOTS. ALL OUR MARBLES ARE QUARRIED FROM THE DEEP GROUND OR FROM THE WILDEST MOUNTAINS. THEY ARE NATURALLY IMPERFECT MATERIALS AND ARE REFINED WITH TRADITIONAL PROCESSES USING THE LATEST MACHINERY AND POLISHED WITH NATURAL WAXES TO PRESERVE THE ORIGINALITY AND UNIQUENESS OF EACH

PIECE.

WE SELECT THE RAW MATERIALS TO OFFER THE BEST COLOR AND TEXTURE CONSISTENCY BUT COLOR AND VEINING PATTERN VARIATIONS FROM BLOCK TO BLOCK AND EVEN FROM SLAB TO SLAB (BELONGING TO THE SAME BLOCK) ARE QUITE COMMON AND UNAVOIDABLE. EACH PIECE IS ONE-OF-A-KIND. THAT'S THE NATURAL MARBLE ESSENCE, THE NATURAL MARBLE UNIQUENESS.

## PRODUCT INFORMATION

All of our stones are natural – presenting all the variations and unique colorings found in nature. Since natural stones come from the quarry as a whole block, the exact nature of any single slab is unknown. As all natural products, no two pieces will look alike. None of the natural veins, pores, and variations are to be considered defects, but instead characteristics that make your table one-of-a-kind and enhance its beauty. Because our tables are all naturally polished, the polish will vary across your table top. This is simply a result of a natural polish on a natural stone and one more way to emphasize the inherent unique beauty of each table. All natural stones are porous and should be cared for like a fine wood table. Our tables are polished with a natural paste wax. The wax is absorbed by natural stone. This process provides the shine on the table top. Because the polish is natural, the shine can be uneven. This irregularity can be caused by either a varied absorption of the wax into the stone or by a varied effect due to the refraction of the light against minerals which have been deposited in different directions in the stone. This uneven polish is absolutely natural and normal and not to be considered a defect. The natural paste wax gives a certain amount of moisture repellence but does not offer full protection. Any beverage or liquid spilled on the top needs to be removed immediately to avoid rings or marks. Hot pots or hot plates should not be placed directly on the stone surface.

Coasters, place mats and trivets are recommended to protect the stone surface from damages due to accidental spillages of acid liquids and due to hot pots or hot plates. Stone International will not be responsible for any marks or damages caused by liquids being spilled with no table protection.

The table top should be wiped using a damp cloth to remove any dust and dirt and then dried using a soft duster. Spills that could damage it, i.e. acidic substances such as fruit juice, wine and spirits, curries etc. should be wiped away as quickly as possible. Ensure that moisture does not become trapped under vases or mats as this may cause the finish to ring. Protect table from the heat by using quality tablemats and coasters.

The marble slabs are normally prours and must be filled before polishing. When slabs are filled and polished, most of the natural holes and fissures are fille but residual voids, fills, and fissures are not to be considered defects but natural characteristics of the materials. Every effort is made for the fill to blend with the coloration of the table top but the fill will never be invisible. Occasionally small openings are missed and remain open. This is not considered a defect.

Because of the natural veining in travertine, marble and granite, natural stress points are always present. Fault lines are natural to stone as the rings on a tree trunk. These fault lines are created during the formation of the marble by the presence of a foreign substance with a different density than the surrounding portions of the marble. Fault lines, as the holes in travertine, are not a defect but natural to the product and visible fault lines do not indicate weakness.

Natural stones, unlike wood, are dead materials which do not alter their structure over time. Once assembled, if used with the proper care, they will last forever. Consequently, a breakage on a table top in the customer's home is generally due to miss-handling or mis-treatment. Like glass, you should not sit or stand on a marble table. When properly assembled the dining table should always have the top attached to the base. In the event you need to move the table after assembling, ALWAYS detach the top from the base first. A top should always be carried perpendicular to the floor – just like a glass top. It should not be dropped or laid flat.

## PRODUCT CARE

### HOW TO APPLY A MARBLE SEALANT

THERE IS NO PRODUCT THAT CAN PROTECT NATURAL MARBLE FROM BEING STAINED OR CORRODED BY AGGRESSIVE SUBSTANCES ENSURING ABSOLUTE RESISTANCE. SEALANTS IN THE FORM OF LIQUIDS CAN BE APPLIED ON THE SURFACE OF THE MARBLE TO PROVIDE A BASE PROTECTION TO WATER AND OIL BASED SUBSTANCES.

SEALANTS ARE NOT ABLE TO PROVIDE ANY RESISTANCE TO ACIDIC SUBSTANCES. SEALANTS PERMIT TO BUY SOME TIME BEFORE THE MARBLE IS STAINED IN ORDER TO WIPE QUICKLY THE SURFACE WITH WATER OR NEUTRAL DETERGENTS. DO NOT LET SPILLAGES STAY ON THE MARBLE SURFACE FOR MORE THAN 30 MINUTES.

WE RECOMMEND TO ALWAYS PROTECT THE TABLE TOP WITH COASTERS, PLACEMATS, TRIVETS TO PREVENT DAMAGES CAUSED BY ACCIDENTAL SPILLAGES OF LIQUIDS AND FOODS, HOT SPOTS AND HOT PLATES.

### WHAT TO DO IN CASE OF STAINS, HOT SPOTS, ACID ETCHING

IF THE DAMAGED AREA IS SMALL (LESS THAN 4/5CM – 2”) YOU CAN SUCCESSFULLY REPAIR THE MARBLE WITH OUR GRINDING AND POLISHING TOOLS

Scan the QR code with your smartphone camera to watch the How-To video

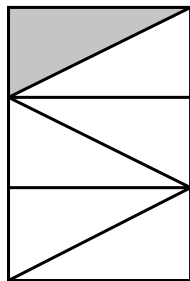

### WHAT TO DO IN CASE OF OPEN PORES OR ACCIDENTAL INDENTATIONS

IF THE MARBLE SURFACE HAS SOME RESIDUAL SMALL PORES (MOSTLY TRAVERTINES) OR HAS BEEN ACCIDENTALLY CHIPPED BY HARD AND BLUNT OBJECTS, CAN SHOW OPEN HOLES OR CHIPPED EDGES. IF THE DAMAGED AREA IS SMALL (LESS THAN 1CM – 1/4”) YOU CAN SUCCESSFULLY REPAIR THE MARBLE WITH OUR FILLERS AND FILLING TOOLS
